### SAD CONDITION IN HAWAII.

The Mohonk Indian conference opened its session at Mohonk Lake, N. Y., yesterday. Rev. D. Alexander Twombly, who has been a resident of Hawaii for some time, was among the speakers. He addressed the conference on the present situation in those islands. He said that conditions there were dark and depressing. The times are hard owing to unwise and demagogic action of the local legislature, dominated by the home rule party. Crime, drunkenness, idleness, and other vices were on the increase. He attributed most of the evils existing to the practically unlimited suffrage conferred upon the people, which had thrown political power largely in the hands of the ignorant, incapable, and unreliable elements of the population, thus rendering the way easy for the greedy, selfish, and corrupt politicians and self-seekers to further their own schemes. The worst elements in Hawaii he declared, were the low-down Americans, carpet-baggers, adventurers, and other scum from the States who had drifted there in recent years. Some of these men had obtained Federal appointments in the judiciary and other offices and had brought shame and scandal upon the administration of law and justice. Added to this element were the deserters from ships, professional criminals, and many "ner-do-wells" from the States who had come there since annexation, but who were now voters. The dominance of elements like these in the politics and legislation of the islands constituted one of the greatest perils of the situation, said Mr. Twombly. A limitation upon the franchise seemed to be absolutely imperative if the local government was ever to be administered on a wise, honest, and economical basis. Another danger was that the interests of Hawaii would be put more and more in the background in the future colonial policy of the United States or subordinate to other interests which were antagonistic.

An address by the Rev. Douglas Birnie, who has been a pastor in Honolulu for several years, followed. He confirmed what Mr. Twombly had said in regard to the evils arising from an ignorant, corruptible, and irresponsible vote which had given an opportunity to unscrupulous politicians and schemers. He drew a dark picture of existing conditions in the islands and said that the only hope for the future lay in a wise restriction of the suffrage, the introduction of Chinese labor upon the sugar plantations, and a reform of the judiciary. He said that the native population had been reduced to about 30,000, was rapidly dying, and would soon disappear entirely. The speaker thought that if the law could be so modified as to admit Chinese labor for the exclusive purpose of working the sugar-cane plantations the situation would be greatly relieved and prosperity for all classes would follow. The importation of Porto Ricans for this work had been an absolute failure, and the introduction of negroes from the States had been followed with no better results.

ALLEGED ATTEMPT TO BRIBE.—Advices from Butte, Mont., are to the effect that the political controversy between F. A. Heinze and Senator Clark and the democratic party is becoming as bitter and personal as the old fights between Clark and Marcus Daly years ago. The climax of the sensational charges seems to have been reached yesterday when Charles W. Clark, son of Senator W. A. Clark, with his father's approval printed over his signature a long statement, charging H. A. Heinze with making to him a proposition to betray his father in the interest of Heinze's mining litigation against the Amalgamated Copper Company. He says Heinze met him last June and told him that it was absolutely necessary that he should win the election and he wanted young Clark's assistance. Heinze proposed that the young man induce his father to take no part in the campaign but leave the State and remain away until after the election. "I wish to elect the associate justice of the Supreme Court, the district judge of Silver Bow county, and the legislature," Heinze is quoted as saying. "With control of the judges and legislature, his litigation would be easy. He desired to control the legislature, young Clark asserts, so that he could pass a bill increasing the number of supreme court judges to five, and knowing that Gov. Toole would appoint judges favorable to his mining interests. He offered young Clark, so the latter says, \$2,500,000, and said he could afford to pay that because he would be able to get \$7,000,000 or \$8,000,000 more for his property from the Amalgamated Company. Young Clark also answers and denies the public charges frequently made by Mr. Heinze that Clark was the man who offered Judge E. W. Harney \$250,000 in behalf of the Amalgamated Copper Company, to have him leave the State and resign after his decision in the Minnie Healy mine case.

BROOM TRUST.—According to a Wall street, New York, report a combination of broom manufacturers is likely to be the next example of the so-called trust. The proposals for options on the plants of manufacturers were sent out in March last, with six months time in which to reply. As projected, the combination will include plants representing about 75 per cent. of the broom industry of the country. The total capitalization of the companies to be included amounts to about \$3,000,000. It is understood that the capital stock is \$5,000,000. Price cutting and competition are said to have cr. down the earnings of the companies largely of late. It is estimated that the annual production of broom corn in the United States is 25,000 tons. One ton makes about 100 dozen brooms, so that the possible yearly output is about 45,000,000 brooms.

PATENTS.—Messrs. Davis and Davis, Washington patent attorneys, report the grant this week of the following patents to residents of this State:

James Bloodgood, Norfolk, assignor by direct and mesne assignments to Joseph M. Austin and R. M. Edwards, Norfolk, grubbing machine; George W. Roper, Norfolk, shingle machine; Arthur M. Tyler, Richmond, assignor of three-tenths to C. Skidmore, Parkersburg, H. E. Spilman, Spilman, and M. G. Tyler, Spilman, W. Va., automatic ink well; Henry S. Kemp, Richmond, assignor by direct and mesne assignments, to the Reversible Electric Car Sign Company, Richmond, two patents for illuminated sign; Rudolph H. Wakeman, Brockwood, assignor of sixty per cent. to Wm. D. Williams, Fredericksburg, car brake.

### Declare Kissing Promotes Disease

Lincoln, Neb., Oct. 24.—The habit of indiscriminately kissing, or any kissing at all, is to be tabooed by the doctors who compose the Missouri Valley Homeopathic Medical Association, which has been holding its annual session here. In the opinion of a majority of those present, the habit is dangerous and to be condemned, no matter how great the provocation. Dr. E. G. Linn, of Mount Pleasant, Iowa, declared that osculatory exercises of all sorts promoted disease and sometimes caused death.

### PROF. LORENZ'S FIRST MISHAP.—Prof.

Adolph Lorenz had the first mishap in his American experience at Thursday's clinic at Mercy Hospital, Chicago. The femur of Belle Mason, on whom he was operating, broke while the doctor was treating her. The fracture was accompanied with a sharp report that was heard distinctly all over the amphitheater. Professor Lorenz stopped the operation at once and said the accident was the tenth that had occurred in the course of his career for more than 1,000 cases of dislocation of the hip. The patient is detained in the hospital, securely bound in plaster bandages.

"It postponed the operation," he said, "but in no way affected the ultimate outcome. To fret the patient is in better condition than before the fracture, and there is better assurance of her complete recovery from the deformity."

### Old People Have Their Troubles.

Mr. Francis Little of Benton Harbor, Mich., is over eighty years of age. Since 1865 he has been troubled more or less with indigestion and constipation and has tried almost everything in use for those ailments. Last August he began using Chamberlain's Stomach and Liver Tablets and was soon feeling much better. In a recent letter he says, "I have used three boxes of the Tablets and now think I am well." These Tablets improve the appetite and invigorate the stomach, liver and bowels. For sale by Richard Gibson, druggist.

### Natural Anxiety.

Mothers regard approaching winter with uneasiness, children take cold so easily. No disease costs more little lives than croup. It is so sudden that the sufferer is often beyond human aid before the doctor arrives. Such cases yield readily to One Minute Cough Cure. Liquidifies the mucus, allays inflammation, removes danger. Absolutely safe. Acts immediately. Cures coughs, colds, croup, bronchitis, all throat and lung trouble. S. McMahon, Hampton, Ga.: "A bad cold rendered me voiceless just before an oratorical contest. I intended to withdraw but took One Minute Cough Cure. It restored my voice in time to win the medal." For sale by E. S. Leadbeater & Sons.

### While there is life there is hope.

I was afflicted with catarrh; could neither eat nor sleep and could hear but little. Ely's Cream Balm cured it.—Marcus G. Shultz, Rahway, N. J.  
Cream Balm reached me safely and the effect is surprising. My son says the first application gave decided relief. Respectedly, Mrs. Franklin Freeman, Dover, N. H.  
The Balm does not irritate or cause sneezing. Sold by druggists at 50 cts. or mailed by Ely Brothers, 56 Warren street, New York.

## BREAD.

For Sale by all Grocers and at Stall No. 22

Market. If You Want the Best Insist on Your

Grocer Giving You Our Bread . . . . .

We Wish to Announce

to the people of Alexandria that since the purchase of the Alexandria Steam

Bread Bakery by ourselves on June 14, 1902, we have spared no pains or expense

in going over this plant and putting it in thorough condition. We now state,

without fear of contradiction, that we have as UP-TO-DATE a bread bakery as

exists in the United States. We are employing Alexandria bakers who are unex-

celled in the art of making bread; and it will be our purpose to see that nothing

is used in the manufacture of bread except the very best of all materials. In this

way we expect to give to the people of Alexandria better bread than they have been

getting. We ask all of our citizens who wish to encourage Alexandria enterprise

to insist on the grocer giving them Alexandria Steam Bread Bakery's Bread. We

guarantee the quality . . . . .
